ballots marked to record a predetermined number of valid votes for each candidate and on each  
measure. The test also included ballots which had votes cast in excess of the number allowed by  
law in certain races, in order to determine the ability of the automatic tabulating equipment to  
reject such votes and ballots with other improper votes.

The test was successful and was concluded at 10:29 P.M. on 11-8-2022.

**NOTE TO PRESIDING JUDGE:**

If the initial test of the 3<sup>rd</sup> test was not successful, the count of all ballots on the malfunctioned  
machine is void. Conduct 2<sup>nd</sup> test again, making notation of the changes to the program,  
adjustments to the equipment and other actions taken to achieve a successful 2<sup>nd</sup> test. Recount  
all ballots counted on the malfunctioned machine and run the 3<sup>rd</sup> test again after the completion  
of counting the ballots.
