

## **VOTERS WITH SPECIAL NEEDS**

Curbside voting is available for persons unable to enter the polling place. Look for the handicap accessible at the entrance. Please contact the Early Voting Clerk for assistance by calling **806-935-2009** and we will alert the judge for you.

All polling places used by Moore County Elections are handicap accessible. Each polling location also has available magnifying sheets and audio equipment that reads the ballots and tactile buttons for visually impaired voters.

Additionally, persons unable to read or write may bring an assistant of their choice to help with the voting process. Only the voter's union representative and employer are ineligible to assist. Election workers are also available upon request to assist.
